International Trade Fair with Congress for Preventive Fire Protection

PRESS RELEASE

July 2021

FeuerTrutz 2021: Ticket Shop open for visitors

The international fire prevention community is bubbling with anticipation: the opportunity to gather again in person at FeuerTrutz and the accompanying congress for preventive fire protection (18-19 October 2021) is finally drawing closer. More than 140 exhibitors have already registered for this industry highlight, which is being planned to be held on-site in Nuremberg with a range of digital add-ons. Visitors can reserve their tickets effective immediately.

More than 140 exhibitors have already made the choice to exhibit and present their products “live” once again, and to breathe life into their business relationships by interacting with their customers in person and at their stands – while simultaneously making use of the benefits that digital channels offer. Details of the exhibitors planning to be on-site at FeuerTrutz can be viewed on the latest floor plans: www.feuertrutz-messe.de/floorplan

The extensive exhibitor and product database also provides an overview of all the exhibitors and their products:

Registering for the Fire Protection Congress

A separate ticket is required for the Fire Protection Congress, organized by FeuerTrutz Network GmbH. One of the key themes for the congress in 2021 will be “Solutions for Special Buildings”. The presentations in a dedicated block at the congress will show how fire protection designers and engineers achieve individual, safe and cost-effective solutions for various special building types. Experienced practitioners will draw on examples to outline state-of-the-art solutions to problems, and avoidable errors for various types of special building. This year will be the tenth time this three-tier congress is planned to be held in Nuremberg, and now it can also be followed online in parallel as a live stream. Additional themes for the congress include new options for multi-storey wooden structures, the 2021 Garage Ordinance (Garagen-Verordnung, GaVO) and e-mobility, practical hints for drawing up plans, and the law on fire protection and construction products.
