BIOFACH WORLD – Quarterly News Update Vol. I 2020

- **BIOFACH INDIA impresses with more than 7,000 visitors**
- **Premiere 2020: BIOFACH JAPAN returns!**

With BIOFACH, the World's Leading Trade Fair for Organic Food in Nuremberg, and another six events around the globe, BIOFACH World has been successfully connecting organic experts with one another for decades. While BIOFACH INDIA 2019 ensured a successful end to the year, the World's Leading Trade Fair in Nuremberg is already in the starting blocks in February 2020. With another two fairs in Japan and China this the spring, BIOFACH World will have an eventful start to the new decade.

BIOFACH INDIA

203 exhibitors and more than 7,000 visitors from over 40 countries was the tally after three busy days at the India Expo Centre, IEML, in Greater Noida, Delhi-NCR. The 11th round of BIOFACH INDIA once again proved to be the must-do event for the organic sector in India. The show is organised and operated by NürnbergMesse India in partnership with APEDA, India's Agricultural and Processed Food Products Export Development Authority. The trade visitors included many high-ranking government representatives, certification agencies and renowned international organic associations, who joined forces to strengthen the Indian organic movement. Other highlights of the event that attest to the dynamic development of the organic sector in India were the 80-member "International Buyers Delegation", state and national pavilions from Germany, Russia and India, and the "Organic Farmers' Market" including conference. Sonia Prashar, CEO NürnbergMesse India, sums it up aptly: "The excellent figures for exhibitors, visitors and partners speak for themselves. The endeavours of all stakeholders and partners have elevated the brand to a new level. It is no longer just an exhibition but a strong platform for knowledge transfer."
