13. Stand design

The exhibitor is responsible for stand equipment and decoration.

The overriding principle for the design of all exhibition stands is transparency. All open sides of the stand must be freely accessible.

This means that at least 50% of the respective gangway side must not be obstructed by structures or fittings.

The minimum height is 2.50 m.

The backs of stand partition walls, advertising carriers or other design elements facing neighboring stands and exceeding a height of 2.50 m must be white, in a clean and tidy condition and must not contain any text or graphics.

Stands exceeding the height of 3.50 m require the approval of the organizer.

The maximum stand height is 5.50 m.

Two-storey stands are permitted in individual cases, subject to a minimum ground-level space of 60 m² and submission of a special application. Two-storey stands must be approved by the organizer and the exhibitor is responsible for obtaining the necessary approvals from the building authority, relevant application forms are to be requested.

Two-storey stands may be rejected in the overall interests of the event and for safety reasons. The stand rental increases by 50% for the stand space covered by the second storey. No legal entitlement exists for two-storey stands.

If the rental exhibition stand is not used, a fascia (0.30 m high) must be fitted on all open sides of the exhibition stand. The fascia is not required, if the necessary stand appearance is provided in some other way.

The exhibition organizer reserves the right to give further instructions concerning the design of stands.

Only water-soluble adhesive may be used on the fiber board stand partition walls and these may not be painted unless they have first been covered with wallpaper. After the exhibition, wallpaper or other finishing material must be removed by the exhibitors, otherwise exhibitors will be charged with the costs.

All other stand partition walls, floors, hall walls, pillars, installations, fire-fighting equipment and other permanent hall fixtures must not be pasted over, nailed, painted or damaged in any way.

The exhibitor is liable for damage done and will be charged with the costs. Pillars, installations and fire-fighting equipment within the stand are part of the allotted stand space and must be accessible at all times.

Floor coverings in the stands are only to be fixed with double-sided adhesive tape (following tapes are to be used: tesafix no. 4964).

The exhibitor agrees to comply with these conditions. Non-compliance may result in claims for damages by the organizer or the neighbouring exhibitors affected.
