BENEFIT FROM THE POTENTIAL OFFERED BY THE NO. 1 IN POWDER AND BULK SOLIDS TECHNOLOGY

POWTECH is the largest specialised trade fair for mechanical process engineering. As the meeting place for the international powder and bulk goods industry, it draws highly-qualified trade visitors from all areas of industry who appreciate the top-class products and services represented there. POWTECH scores with experts from all sectors by providing a compact overview of the key innovations and developments in all parts of the processes

used to turn solid materials, powder, granulates and bulk solids into quality products. It is the event where process and project engineers, production managers and scientists seek out individual solutions for their innovative developments and efficient, cost-effective production processes.

We are looking forward to seeing you.
