POWTECH

World-Leading Trade Fair for Processing,
Analysis, and Handling of Powder and Bulk Solids

**9 – 11.4.2019
NUREMBERG,
GERMANY**

Together with

PARTEC 2019

THE RIGHT SOLUTION FOR ANY CHALLENGE

POWTECH – the hands-on approach to mechanical processing technology. At this leading international trade fair, exhibitors from all over the world talk about the latest developments and present machinery and equipment that will inspire you. At POWTECH, the industry's concentrated expertise in bulk solids technology and the associated analysis take centre stage.

As the meeting place for the international bulk goods community, POWTECH is the platform where you will learn all about the latest trends, process solutions and analytical characterisation. It's where you will meet the experts who will work with you at the venue itself to develop solutions to meet the individual requirements for your equipment and processes. After all, talking in detail to an expert is still the best way to achieve efficient improvements. Be inspired by the dynamism of POWTECH and discover the details that will make your processes even better. Look forward to fascinating insights and intensive discussions with people who share your passion for mechanical processing technology!

FESSIONAL DIALOGUE THEY HAD

KNOWLEDGE IS FOR SHARING

As well as the latest technology, there is one thing above all that is crucial to your success. And that's knowledge. And this is exactly what you will find at POWTECH, in the expert forums for chemistry and food, the Pharma.Manufacturing.Excellence forum and the Networking Campus.

Expert Forum Chemistry

New strategies for sustainable "green chemistry" in procurement, production and sales, IoT, mixed reality and new processes in solids production are the topics that matter to the chemical sector. These important issues for the future will be discussed in the Expert Forum, so get your know-how directly from the experts!

Expert Forum Food

The food industry is facing up to the challenges of the future. In Food Economy 4.0, experts will provide insights on food safety, new production processes and many other topics. Benefit from the know-how of the experts!

Pharma.Manufacturing.Excellence

The pharmaceutical industry and POWTECH are the perfect match. The pharmaceutical forum in Hall 3 is the hot spot for pharmaceutical experts. Exchange information on the main topic of pharmaceutical auxiliaries and processes and take part in the Pharmaceutical Guided Tour.

Networking Campus

The Networking Campus is the fresh new platform for networking amongst peers. It's where industry and the research community, start-ups and major industry players come together to discuss the issues affecting future markets and future technologies.

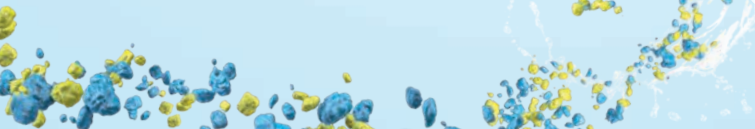

Special display area Explosion Protection

Go straight to the heart of the action with an Explosion Protection Guided Tour. Don't miss the LIVE explosions happening every day in the outdoor demonstration zone. Look forward to a special trade fair experience!

VDMA Special Show – Dust knows no borders

But efficient and safe processes for occupational safety and environmental protection can put dust in its place – and this is something that should be a matter of course worldwide. VDMA advocates free trade so that the best process technology for bulk solids is available on all contents. In Hall 2 you can experience air purification and drying technologies in the digital era.
