

European System Houses and their Contribution to the Circular Economy

EPPA organises a press tour of the exhibition booths of European manufacturers of PVC window systems on 19 March 2020 at 12:30 p.m. Meeting point is booth 3A-435.

The European trade association of PVC-U window systems manufacturers, EPPA, is inviting the press to an exclusive tour at the Fensterbau Frontale in Nuremberg. The approx. 90-minute tour starts on Thursday, 19 March 2020 at 12:30 p.m. at the EPPA booth. The representatives of the major European system houses will give an insight into how they contribute to the Circular Economy and the EU recycling *initiative Circular Plastics Alliance (CPA)*. You are invited to learn more about PVC windows as the blueprint for sustainable building products. During the tour, EPPA will explain the background of current initiatives such as CPA and the European Green Deal, and the involvement of the association and members in these projects. At the booths, journalists will have the opportunity to exchange views with representatives of the system houses on current products and strategies in the context of the Circular Economy.

The tour will be given in English and in German (upon request).

Participating system houses so far are: Deceuninck, Gealan, Internorm, Profine, Rehau, Schüco and Veka

All interested media representatives are cordially invited to take part in a press tour lasting approximately 90 minutes. The meeting and starting point of the tour is the EPPA booth in Hall 3A-435.
