4. Contractual terms

The terms for participation in the trade fair IWA OutdoorClassics 2021 are the Special and General Conditions for Participation in Fairs and Exhibitions (including Supplementary Agreement), the NürnbergMesse site regulations, the organizational (e.g. exhibitor information), technical and other conditions notified to the exhibitor before the exhibition begins.

If NürnbergMesse provides additional exhibition services through a ServicePartner in response to a separate order, the general terms and conditions of sec. 5 of the Service Handbook prevail.

5. Admission/Stand space confirmation

Item 2 of the General Conditions for Participation in Fairs and Exhibitions is supplemented as follows: The exhibitor agrees to pay a processing fee of EUR 250 if the order for stand space is cancelled prior to receipt of the stand confirmation. Cancellation after receipt of the stand space confirmation (= admission) is governed by item 7 of the General Conditions for Participation in Fairs and Exhibitions.

6. Exhibitors and approved exhibition goods, visitors

6.1 Exhibitors, age limit

Admissible as exhibitors are: manufacturers, importers, wholesalers, representatives and publishers, domestic and foreign, offering only those products and services that can be assigned to the product groups provided. All exhibition goods must be described in detail in the application. Products (copies, counterfeits, etc.) that violate the regulations for the protection of industrial property rights in Germany are not admitted.

Children and young people under 18 years of age are not admitted to the exhibition. Admission may be granted to 16- and 17-year-olds in exceptional justified cases. An exceptional case only exists if such a person is employed by an exhibiting company, which must be proved. Admission is only possible if accompanied by an adult.

6.2 Admissible exhibits, inadmissible exhibits

The exhibitor acknowledges the legal firearms regulations in force at the place of exhibition and the conditions stated below and agrees to comply with same. In case of contravention in spite of a written request to desist, the organizer is entitled to exclude the exhibitor from the current and the next IWA OutdoorClassics.

The following may be exhibited:

- Arms and products that agree with the specified product groups and the theme of IWA OutdoorClassics as a trade fair for hunting and shooting sports, classic outdoor activities, security and law enforcement.
In case of doubt, the exhibition management decides on the admissibility of a product in consultation with the exhibition committee and the sponsors of IWA OutdoorClassics.
- Airsoft guns that resemble fully automatic military weapons:
 - max. 1 model of each of these guns may be displayed,
 - these guns are limited overall to not more than 20% of the total number of airsoft guns presented on the stand at IWA OutdoorClassics, and
 - the models may not be shown as fully automatic shooting versions.
- “Prohibited arms and articles” (as per German Firearms Act).
Presentation is only possible if in possession of relevant special permission from the Federal Criminal Investigation Office.
- It is expressly pointed out that
 - lamps specifically designed for mounting on firearms,
 - lamps (usually torches) associated with a suitable device for mounting them on guns and
 - separate devices for mounting on guns without lampare PROHIBITED by the German Firearms Act.
It is irrelevant whether or not such a device and/or lamp is already mounted on a gun. The type of gun on which the device and/or lamp is to be mounted is also irrelevant, i.e. the ban not only applies to firearms requiring a licence, but also to airguns, spring-operated guns, CO2 guns and Airsoft guns. Derogations for presentation at IWA OutdoorClassics can be applied for via the exhibition management.

The display and sale of the following is prohibited:

- Military weapons as defined by the Military Weapons Control Act in Germany (KrWaffKontrG). This also covers the presentation of military weapons in brochures, films or similar that can result in contract transactions.
- Fully automatic firearms that are not military weapons; as stated above, firearms for this purpose also include other types of fully automatic airsoft, air, spring-operated and CO2 guns and, if applicable, blank, gas and signal guns. Fully or semi-automatic working firearms are prohibited by the German Firearms Act and the Federal Criminal Investigation Office (BKA) does not issue special licences for such firearms for IWA OutdoorClassics; even importing such articles constitutes a criminal offence in Germany.
- Military weapons rendered unusable, particularly fully automatic military weapons that have been modified to decorative weapons.
- Parts of military weapons rendered unusable.

6.3 Trade visitors, age limit

The exhibitor agrees only to invite visitors from supply trade companies, commercial sources of demand and the official agencies. Proof of the right to admission is to be provided.

In consultation with the exhibition committee and sponsors of IWA OutdoorClassics, NürnbergMesse is authorized to admit other visitor target groups to the exhibition, if applicable in limited numbers and in a manner that does not disturb the business nature of IWA OutdoorClassics.

Children and young people under 18 years of age are not admitted to the exhibition. Admission may be granted to 16- and 17-year-olds in exceptional justified cases. An exceptional case only exists if such a person is employed by a trade visitor entitled to visit the exhibition, which must be proved. Admission is only possible if accompanied by an adult. 16- and 17-year-old students of gunsmith colleges are admitted if accompanied by a teacher.

6.4 Direct selling, delivery and handling of exhibits

The delivery or handing over of exhibits is prohibited. In the event of contravention of this rule in spite of a warning being given, the organizer shall be entitled to exclude the exhibitor concerned from the current and next IWA OutdoorClassics. It is emphasized that the direct sale, delivery or handing (also as gifts or loan) of guns, ammunition and cut and thrust weapons is not only a violation of the Conditions for Participation in IWA OutdoorClassics, but also constitutes an offence against the applicable statutory firearms regulations of the Federal Republic of Germany (§ 52 Clause 1 No. 3 of German Firearms Act) and must be punished by penal prosecution.

6.5 Ranges and targets

All kinds of ranges – ranges for shooting with licensed firearms as well as ranges for shooting with airguns, spring-operated guns, CO2 guns and all airsoft versions – also require official approval by the Nürnberg authorities (shooting license). The granting of such a license is also dependent on the results of the safety inspection carried out by the official shooting range expert.

To this effect, the intended operation of a shooting range – regardless of type – must be **notified in writing** to the exhibition management with the application to exhibit.

The exhibition management will initiate the application for an official shooting license if necessary.

On real shooting ranges and on laser and other virtual shooting ranges involving no projectiles moving in the direction of the target, people or similar are **never to be used** to represent targets on static target discs or in videos, animated films or cartoons.

Police and military training videos may only be shown to persons (representatives of official agencies) in closed-off areas of the stand.

6.6 Prevention of theft, gun security, stand manager

It is expressly pointed out that firearms requiring licences must be secured mechanically using steel cables. The temporary use of purely plastic parts (cable ties) or fixing the steel cables on the stand using short wood screws without a locking mechanism is prohibited. Additional protection by securing with steel cables is also expressly specified for the storage of firearms in normal exhibition showcases (exception: separate individual showcases with their own stronger locks and individual keys or an alarm system in the showcase). Working ammunition must be kept in lockable containers (showcases). The permanent presence of stand staff is no substitute for mechanical locking devices. In case of inadequate security the organizer reserves the right to charge the costs incurred to the exhibitor.

7. Rental in exhibition halls per m² (or part thereof) stand space

EUR 189	In-line stand	(1 side open)
EUR 209	Corner stand	(2 sides open)
EUR 220	Peninsula stand	(3 sides open)

The flat fee for this is EUR 3.50/m² and is charged up to a maximum area of 500 m². The disposal of production waste accumulated during the event, entire stand elements or complete exhibition stands must be ordered separately. It is strictly forbidden to bring any waste with you, any violation will be charged to the exhibitor. We reserve the right to take further measures. Waste is disposed of in accordance with the Technical Regulations.

8. Complete rental stand

All charges of complete rental stands are calculated per m² of stand space (rounded up to nearest full m²), in addition to rental charge for stand space in exhibition halls (see item 7). All pictures are exemplary pictures.

You will find further models at www.standconfigurator.com.

The organizer is responsible for assembling and dismantling the complete rental stand.

The complete rental stand and its fittings must not be pasted over, nailed, painted or damaged in any way. The exhibitor is liable for damage done during the rental period and will be charged with the costs.

9. Payment conditions

Any payments are due by the date shown on the respective invoice. Invoices are payable in full. All payments are to be made in EURO without charges, quoting invoice number.

If the exhibitor enters a different invoice address on the application form, he authorizes the stated person/company to receive the invoice and other payment requests. This does not exempt the exhibitor from his obligation to pay.

An entitlement to occupy the allocated stand space exists only after payment of invoices in full. The exhibitor is to provide proof of payment.

This particularly applies to claims for damages lodged against the organizer.

13. Stand design, stand mentoring

13.1 Stand design

The exhibitor is responsible for stand equipment and decoration.

As far as possible all open sides of the stand must be arranged to permit unrestricted access. If more than 50% of a gangway side is obstructed, the structures must not exceed a height of 1.00 m below the lighting.

The minimum height is 2.50 m.

The backs of stand partition walls, advertising carriers or other design elements facing neighboring stands and exceeding a height of 2.50 m must be white, in a clean and tidy condition and must not contain any text or graphics.

Two-storey stands are permitted in individual cases, subject to a minimum ground-level space of 100 m² and submission of a special application. Not more than 50% of the ground-level space is to be covered by the second storey.

Two-storey stands must be approved by the organizer and the exhibitor is responsible for obtaining the necessary approvals from the building authority; relevant application forms are to be requested. Two-storey stands may be rejected in the overall interests of the event and for safety reasons. The stand rental increases by 50% for the stand space covered by the second storey.

No legal entitlement exists for two-storey stands.

If the rental exhibition stand is not used, a fascia (0.30 m high) must be fitted on all open sides of the exhibition stand. The fascia is not required, if the necessary stand appearance is provided in some other way.

The exhibition organizer reserves the right to give further instructions concerning the design of stands.

Only water-soluble adhesive may be used on the fiber board stand partition walls and these may not be painted unless they have first been covered with wallpaper. After the exhibition, wallpaper or other finishing material must be removed by the exhibitors, otherwise exhibitors will be charged with the costs.

All other stand partition walls, floors, hall walls, pillars, installations, fire-fighting equipment and other permanent hall fixtures must not be pasted over, nailed, painted or damaged in any way.

The exhibitor is liable for damage done and will be charged with the costs. Pillars, installations and fire-fighting equipment within the stand are part of the allotted stand space and must be accessible at all times.

Floor coverings in the stands are only to be fixed with double-sided adhesive tape (following tapes are to be used: tesafix no. 4964).

The exhibitor agrees to comply with these conditions. Non-compliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

13.2 Stand mentoring

No dismantling of exhibition stands and/or disposal of products (except patterns, samples and promotional give-aways) before the end of the exhibition)

The exhibition ends at **4 p.m.** on the last day. Until this time, every exhibitor agrees

- to man his stand space with his stand personnel

The organizer can impose a contract penalty on the exhibitor for each case of contravention. **The contract penalty amounts to 20% of the net stand rental, subject to a minimum of EUR 2,000.** The organizer also reserves the right to exclude the exhibitor from exhibiting at future IWA OutdoorClassics exhibitions.
