The Chillventa AWARD is an accolade that acknowledges expert teams of system engineers, planners and operators. Discover exceptional projects featuring impressive levels of functionality, energy consumption and technical innovation. Get valuable inspiration straight from the experts at the award ceremony on 16.10.2018 at the specialist forum in Hall 7A.

MEET & GREET – MISS CHILLVENTA AWAITS YOU!

Look forward to our very special guest. For years Miss Chillventa has been the popular and friendly face of the exhibition – and this year she will be there to greet you in person! Take your souvenir photo and enjoy yourself at other live events.

NEW INSPIRATION FOR REFRIGERATION EXPERTS

The world's leading international exhibition for refrigeration technology offers a unique opportunity to make new business contacts and gain insights into the issues that matter for the future. It's where you will find valuable inspiration about the interaction between industry, plant engineering, applications and research from the global players and experts.

IDEAS FOR WORLDWIDE GROWTH

Sustainable air-conditioning systems for people and processes are in demand worldwide. Learn at first hand, by talking to international exhibitors, how you can best tap into this growth potential with innovative combinations of air-conditioning and ventilation.

SOLUTIONS TO THE ISSUES OF THE FUTURE

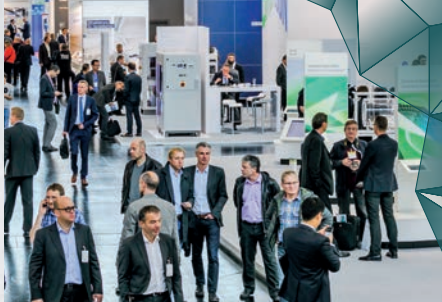

Heat pumps for commercial, industrial and municipal use are the technology with which you can exploit the full potential of the transition to renewable energies. You can learn directly from the major international players from your industry how to position yourself accordingly.
