If you work with natural stone,  
you can't miss Stone+tec

The largest trade fair for natural stone and a fixture in the industry, now in its 20<sup>th</sup> edition

Attractive supporting programme with two new special shows

Pick up valuable professional knowledge at the forum.

## Stone+tec – meeting place of the industry that's not to be missed

What makes Stone+tec so special as a meeting place for the natural stone industry? As the largest trade fair for natural stone and stone technology in the German-speaking world, it will host international exhibitors from around 30 countries. Stone+tec will impress with a unique variety of products, technologies and ideas – for natural stone, engineered stone, technology and gravestones. You can look forward to a supporting programme with more appeal than ever, along with two new special shows and professional discussions with colleagues and experts. This leading exhibition will once again combine tradition and the future at its 20<sup>th</sup> anniversary event.

We're looking forward to your visit!

## Stone+tec forum

At the forum in Hall 9 you can look forward to some totally fascinating industry events. In addition to professional presentations on the different subject days, there will also be panel discussions and award ceremonies.

### Subject days

The forum will offer valuable suggestions on special topics:

Thursday – Cemetery Forum

Friday – Sustainability in construction

### Panel discussion

Experts discuss the trend themes for the industry: “Opposites attract – CNC and design” and “Decision-making aids – robots or processing centre?”

### Award ceremonies

Digital best practices for the industry – the “Naturstein Marketing Award”. The results of an exciting competition – award ceremony for the Competition for Young Stonemasons.

## Special shows

### Unser Naturstein NACHHALTIGKEIT

“Our natural stone –  
together for a sustainable future”

Discover how natural stone from quarries in Germany, Austria, Switzerland and South Tyrol is particularly sustainable.

### Technik+Chemie ARBEITSPLETTEN

Discover the latest products, machines and tools for the manufacture, processing and care of worktops.

## Other highlights

### German Natural Stone Award 2018

Experience extraordinary architecture that uses natural stone to add unique design accents in urban construction – organised and presented by the German Natural Stone Association (Deutscher Naturwerkstein-Verband e. V.).

### Guided tours for students and university graduates

Guided tours on “The variety of an international trade fair – an overview”, organised by the RheinMain University of Applied Sciences (Hochschule RheinMain).

### Congress on cemetery culture

Cemeteries are places of remembrance that are constantly changing, despite their durability. Expert presentations will reveal the opportunities these changes offer. The congress is organised by the Association for Memorial Culture (Verband für Gedenkkultur).

### Competition for Young Stonemasons

“Paths of life” – the theme for the live competition on the exhibition forecourt in which young craftspeople are invited to demonstrate their skills. Organised and awarded by the Association of German Stonemasons (Bundesverband Deutscher Steinmetze).
