MOST IMPORTANT SECTORS WILL MEET AT EUROGUSS MEXICO

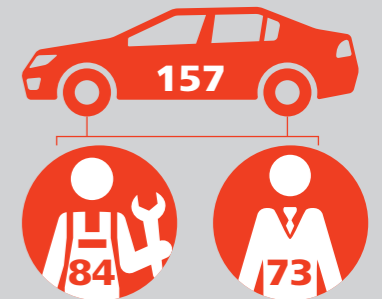

- Automotive
- Foundry
- Mold Construction
- Machinery and plant construction
- Appliances and electronic devices
- Building
- Furniture construction
- Medical engineering
- Aerospace

“WHY EUROGUSS MEXICO”

MEXICO, A COUNTRY SYNONYMOUS OF GROWTH AND DEVELOPMENT

Automotive industry generates impacts on **157 economic activities**

in the country, 84 correspond to the manufacturing industry and 73 to trade and services.

WE COVER THE ENTIRE PRODUCTION CHAIN OF THE NON-FERROUS CASTING INDUSTRY

Die casting foundries ■ Die casting machines and plants ■ Moulds and accessories ■ Sand casting, machine moulding ■ Sand casting machines and casting equipment ■ Mould and core production for sand and gravity die casting ■ Core making machines and plants ■ Gravity die casting ■ Gravity die casting machines and accessories ■ Deburring, separating, cleaning for sand and gravity die castings ■ Additive Manufacturing ■ Peripheral devices and systems ■ Machining and assembly of castings ■ Testing and measuring equipment for castings ■ Alloys and metals ■ Software and Simulation ■ Environmental protection / waste management / occupational safety ■ Research, consulting, services, associations and publications.

THE PLACE TO BUILD NEW BUSINESS OPPORTUNITIES

EUROGUSS arrives in Mexico opening its doors by promoting the most important industries for the sector through new technologies, opportunities and innovation.

With the growth of the automotive and metallurgical industry in Mexico, EUROGUSS MEXICO is the space where international experts, users, suppliers

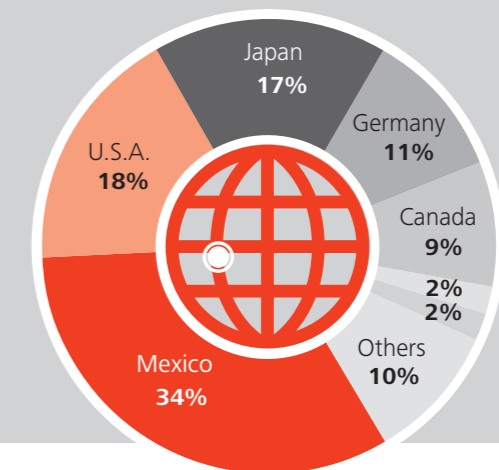

and decision-making buyers shape the future and development of their sectors. Come and participate in this world-class meeting, make EUROGUSS MEXICO your research, marketing and contact tool.

EUROGUSS MEXICO, your growth platform:

euroguss-mexico.com

Aerospace industry is expected to reach exports of **12,267 million dollars** by 2021, with an average annual **growth of 14.4%**.

Main auto parts manufacturers

For suppliers from the die casting industry in particular, Mexico offers enormous potential.
