INTERNATIONAL EXHIBITION

MedTech Summit Congress

For the first time in 2020, MedTech Summit and MedtecLIVE will be integrated to one major platform which will give congress participants and trade fair visitors from all over the world the opportunity to acquire practice oriented knowledge in the lecture areas right on the trade show floor and engage in networking activities in the B2B Partnering. Join us to get new ideas off the ground and be there when we build the future of the sector together.

The presentation agenda will cover trendsetting topics such as artificial intelligence, digital tools and innovative healthcare while also focusing on the most important current challenges like manufacturing processes, regulation and networked health.
