12. Stand design

The exhibitor is responsible for stand equipment and decoration.

Relevant for stand design and equipment are the Technical Regulations (Info 4) and the Important information for FACHPACK 2022 (Info 1) which are published at www.fachpack.de/en and the Online ExhibitorShop (OES). The exhibitor agrees to comply with these conditions. Noncompliance may result in claims for damages by the organizer or the neighboring exhibitors affected.

The exhibition organizer reserves the right to give further instructions concerning the design of stands.

Exhibitors are obliged to decorate their stands carefully and in good taste.

Stands which do not conform to the accepted standards will not be approved by the organizer until the necessary changes have been made. Unacceptable advertising will be similarly affected.

The overriding principle for the design of all exhibition stands is transparency. At least 50 % of the total amount of all gangway sides must not be obstructed by structures or fittings.

The minimum height for exhibition stands is 2.50 m. The maximum height for stand and advertising constructions is 5.50 m, measured from hall floor and may not be exceeded.

The backs of stand partition walls, advertising carriers or other design elements facing neighboring stands and exceeding a height of 2.50 m must be of neutral design and clean and must not contain any text or graphics.

Advertising carriers or other design elements from 3.50 m up to the maximum height of 5.50 m must keep a distance of 2.00 m to each neighboring stand. Two-storey stands are not allowed.

Exhibition stands of 400 m² or more are subject to approval. To check the design and execution of his stand a checklist is available in the Online ExhibitorShop at www.fachpack.de/checklist.

Stands are to be provided with an adequate floor covering (e.g. carpet, parquet, PVC) by exhibitors. The name and address of the stand holder are to be clearly indicated on the stand for the full duration of the event. The exhibitor agrees to erect a 2.50 m high own stand partition on all closed sides of the stand space. If the exhibitor does not use his own stand partition or a rental stand, own stand partition walls are to be ordered from the ServicePartners. Stand partition walls are available for rental in plastic-coated finish.

Only water-soluble adhesive may be used on the fiber board stand partition walls and these may not be painted unless they have first been covered with wallpaper. After the exhibition, wallpaper or other finishing material must be removed by the exhibitors, otherwise exhibitors will be charged with the costs. If a rental exhibition stand is not used, a fascia (0.30 m high) must be fitted on all open sides of the stand space. The fascia can be omitted if the necessary stand quality is assured in some other way.

Stand partition walls, floors, hall walls, pillars, installations, fire-fighting equipment and other permanent hall fixtures must not be pasted over, nailed, painted or damaged in any other way.

The exhibitor is responsible for any damage and will be charged with the cost of repair. Any pillars, installations and fire-fighting equipment located within the stand are part of the allotted stand space and must be accessible at all times.

Floor coverings in the stands are only to be fixed with double-sided adhesive tape (following tapes are to be used: tesafix no. 4964).

If the remains of other adhesive tapes must be removed from the hall floor after the end of dismantling, the cleaning costs will be charged to the exhibitor. The same applies to the remains of carpets etc.

Participation in lead tracking is voluntary and does not take place without the participants further cooperation.
