5. Logistics via TransitFair

Intelligent and dynamic delivery logistics for your trade fair exhibit:

Bringing exhibition logistics to a new level. To ensure better planning and coordination of the assembly and dismantling phases with fewer waiting times and more flexibility, all vehicles that enter the exhibition center are pre-registered via our new digital tool **TransitFair**. With **TransitFair** you book your time slots for loading and unloading your vehicles to improve your planning and gain transparency and efficiency for assembly and dismantling.

This is how it works:

1. You register yourself at app.transit-fair.com
2. As soon as you have created an account you register your vehicles for the assembly and dismantling times and book your time slots for loading and unloading.

Attention: For Trucks longer than 10 meters booking a relevant forklift / crane is obligatory.

3. On the date of assembly/ dismantling the drivers of vehicles over 10 meter length have to check in at the lorry car park „Poststraße“. For this please follow the directions on the plan on page five of this document. All other vehicles have to check in at the registration point on the „Große Straße“. To access this area please follow blue route seen on the plan “delivery traffic” found on page four of this document.

After check in the driver receives a confirmation of the time slot with directions to the designated loading yard.

4. Vehicles of more than 7 m length: As soon as your time slot is available, the driver receives a call up (SMS / E-Mail) to proceed to the exhibition center.

Vehicles up to 7 m length: As soon as your time slot is available, please proceed to the exhibition center autonomously.

Attention: Please respect the booked time slot. An earlier access to the loading yards will not be permitted!

5. The vehicle may then enter the exhibition center via the designated gate and will be instructed to the correct parking position by our staff on site.

Attention: The permit to enter the exhibition center is only valid for the driver. Further persons in the vehicle need to possess assembly- and dismantling passes or must be registered via our Service Ticketing Portal.

6. After successful loading / unloading within the respective time slot the driver checks out at the gate and leaves the exhibition center.

Attention: On the last day of POWTECH (28.09.2023) vehicles may not enter the loading yards from 12:00 until 20:00 due to the delivery of empty containers by the trade fair forwarding agents.

Attention: Trucks longer than 10 meters may enter the loading yards on 29.09.2023 the earliest.

6. Parking with cars

During assembly and dismantling

During assembly and dismantling cars can be parked on the following parking areas free of charge:

- Große Straße

During the opening days of the exhibition

During the exhibition, exhibitor parking spaces are available for a fee at the following areas:

- Große Straße
- Multi storey car park Große Straße

Parking tickets can be purchased on the last set-up day and 1st day of the trade fair from Engelhardt & Co. Parkraummanagement und Service GmbH at the ServicePartner Center or directly at the parking areas.

One-day parking permits can be purchased on site from our service guards.

Please note the opening times of the multi-storey car park:

From Wednesday, 26.09.2023 to Thursday, 28.09.2023 the parking guard is manned 2 hours before the start of the event up to and including 1.5 hours after the end of the event. It is ensured that cars can exit from the multi-storey car park around the clock.

7. Parking with trucks

During assembly and dismantling:

After successful loading and unloading you can park your truck at the lorry car park in the Poststraße within the opening hours.

During the opening days of the exhibition:

The permanent parking permits are only valid for cars. During the fair, trucks, trailers, vans/pick-ups, swap bodies, caravans and camper vans must not be parked on the areas designated as car parks or in the loading yards of Exhibition Centre Nuremberg (with the exception of the maximum 30 minute delivery period) or on the road called "Grosse Strasse".

During the fair these vehicles can be parked on the designated truck parking areas free of charge (limited availability). Access routes to these parking areas, which are just a few minutes drive from the exhibition centre, are signposted and are also shown on the direction maps issued at the loading yards and attached to this letter.

From Thursday, 21.09.2023 until Monday, 25.09.2023 (last day of assembly) there is a shuttle bus to and from the truck parking areas. This shuttle service is available during the opening hours of the lorry car park. On the last day of assembly the shuttle is available from 07:00-20:00. In case of deliveries on Tuesday 26.09.2023 the shuttle is available on request. If you need the shuttle service on this day please contact our service guards at the gate.

The organizer is entitled to remove any vehicle parked on the car parks of the exhibition grounds or in the loading yards at 02:00 in the morning before the first day of the event at the vehicle owner's or user's cost.

The exhibitor undertakes to ensure that third party firms engaged by the exhibitor, such as trade fair service companies or forwarders, also adhere to these regulations. **Please pass on the attached documents accordingly.**

9. Timely declaration of heavy goods

To ensure smooth transport of heavy and bulky goods during assembly and dismantling, a timely declaration of the respective goods with the forwarding agent (ServicePartner) is mandatory.

If your exhibits exceed the dimensions of 3,00 m x 2,00 m x 2,00 m (length, width, height) or if they are heavier than 3,0 tons the declaration with the forwarding agent (ServicePartner) is mandatory at <https://app.transit-fair.com/> at least 10 days in advance.

The delivery of such bulky or heavy exhibits needs to take place in the morning on the first day of assembly or in special cases during the extended assembly times.

10. Special exemption from ban on driving of trucks on Sundays and public holidays in Germany

All trucks exceeding 7.5 t and trucks with trailers require special approval as per § 46 Para. 1 No. 7 in conjunction with § 30 Para. 3 of the German Highway Code /StVO) for planned journeys between 0.00 midnight and 10.00 p.m. on Sundays and public holidays (§ 30 Para. 4 StVO).

Permits are available directly from the authority at the branch of the forwarder or from the Nuremberg road traffic authority:
