The winner of the Audience Award

Laguiole en Aubrac: Polar Star

The straight shaped Laguiole "Droit" is considered to be the archetype of all Laguiole knives. Based on this, Laguiole en Aubrac has designed a souped-up, elegant anniversary model that only looks old fashioned at first glance. The materials used, quickly show that we are in the present time: A Japanese VG-10 stainless Layer-Damascus as blade material and the hollow grind are not typical of these traditional French knives. The stabilized mammoth ivory as handle material is held in place by a generously sized piece of iron meteorite as a handle end. The unusual appearance of this unfolded 24 cm long knife is rounded off by the elaborately hand-chiseled decorations on the back spring, the plates and the "Mouche", matching the structure of the meteorite.
