

IMPORTANT INFORMATION ON THE TRANSPORT OF WEAPONS AND PRODUCTS REQUIRING A PERMIT

Dear Exhibitor at IWA OutdoorClassics,

In accordance with the Firearms Act of the Federal Republic of Germany, separate official licences are now required in each case for bringing firearms into and through Germany, for trading and for presenting and offering firearms at IWA OutdoorClassics. This licence has been granted by the Nuremberg Public Affairs Office (Ordnungsamt) as a special exemption order covering all exhibitors at IWA OutdoorClassics 2024; a copy of the permit can be found on the website. This copy is very important for you and your forwarding agent.

Please be sure to observe the following procedure regarding the transport of weapons and essential firearms parts to and from the trade fair location. Checks on the weapons/products brought to IWA OutdoorClassics will be carried out by the City of Nuremberg (for EU states) and by Customs (for states outside the EU).

► **For importation from EU countries: own transportation (not by a forwarding agency)**

If your company transports arms or essential parts of firearms to IWA OutdoorClassics 2024 itself and does not appoint a forwarding agent for this task, a transport permit for Germany issued by a German authority is necessary. This concerns all exhibitors from EU countries, as customs control is no longer carried out due to the opening of the borders, which means that no import declaration is made.

Please send us the enclosed form as soon as possible together with a list of all firearms and essential parts of firearms you will bring to Germany for IWA OutdoorClassics 2024. We will pass this form to the Nuremberg authorities for approval without delay. You then use the approved list together with the enclosed copy of the order from the Nuremberg authorities as proof of transport and possession in Germany.

► **For importation from EU countries: transport by a forwarding agency**

If you engage a forwarding agency to transport weapons or essential parts of firearms, enter their name and business address in the form provided to you. Please return the attached form with the information about your forwarding agent.

► **For importation from non-EU countries**

In this case, you (or your appointed forwarding agent) carry out customs clearance, at which you present a packing list containing all the firearms (including serial numbers) you will bring to IWA OutdoorClassics 2024. A separate packing list must be prepared for each package. Please also note the relevant general instructions of the exhibition forwarding agent. Please also present the enclosed order issued by the Nuremberg authorities for customs clearance.

Compliance with these instructions is important!

Checks of firearms brought to IWA OutdoorClassics will be carried out by the Nuremberg authorities (for EU countries) and by the customs authorities (for non-EU countries).
