Email with editing link for your profile and access to the platform:

Sender: schedule@talque.com

Subject: embedded world 2021 DIGITAL – Start onboarding now

- Clicking the "Start now" button will take you to the onboarding.
- Take 15 minutes to create your profile & get your "Best matches" at the same time!

Tips and tricks for creating your personal profiles

- The onboarding process can be re-run infinitely via your Profile Menu > "Change My Profile", so this assignment can be decided each time.
- All users will be asked the following question during onboarding: "Are you an employee of a partner company?" Please select a partner profile if you would like to be listed there as an employee.
Employees of an exhibitor should only click on your company here if they would like to be listed as **stand staff on the company profile**. If your colleagues only want to be participants on the platform, they can select "No, does not apply to me" on this page.
- The onboarding process, in which you specify your search and bid criteria, is crucial for matchmaking, i.e. for your best matches!
- Our tip: Less is more - take advantage of the fact that you can run the onboarding process multiple times with a different, focused selection each time, generating different but targeted matches each time.
