SUPPORTING ARGUMENTS
FOR ATTENDING THE EXHIBITION

At **MedtecLIVE** in Nuremberg from **31 March to 2 April 2020**, the international medtech sector will be showcasing the **entire medical technology process chain**, from prototypes to production and downstream processes.

I would very much like to visit this event to:

- be inspired by the innovations and latest technologies
- engage in dialogue with the European medical technology community and
- make interesting business contacts and win new partners for our projects.

MedtecLIVE is a very promising event. **It welcomes exhibitors come from all around the world** and include major players and creative start-ups alike. Young companies and research teams present their developments at the **Innovation Market Place**. I also expect to get very interesting input on the latest and forthcoming trends in medical technology from the renowned experts at the **two exhibition forums**.

For the first time this year, the **internationally renowned MedTech Summit congress** and matchmaking event "Partnering" are accessible to all participants free of charge at the heart of the exhibition. They will offer me additional practical knowledge, efficient networking opportunities and effective discussions.

The following exhibitors in particular can help us to drive our product developments forward even more effectively:

I would be very pleased if you would authorise my visit to MedtecLIVE 2020.
For your information, here is a list of the expected costs of participation:

- Admission:
 - 1-day ticket EUR 22
 - Permanent ticket EUR 40
- Travel costs EUR
- Hotel EUR
- Catering EUR

Total costs EUR

MedtecLIVE promises to deliver new inspiration for our sector and gives us the opportunity to actively help shape the future of medical technology.

I look forward to an interesting trade fair visit that will bring successful outcomes for our company.

Many thanks

COMPREHENSIVE AND DIVERSE PRODUCT RANGE
Processes, mechanical engineering, manufacturing | Materials, components | Design, R&D | Services | IT | Measuring, testing, validation

WHERE IDEAS BECOME REALITY

At MedtecLIVE you'll find inspiration for the entire international medical technology supply chain, from prototypes to production as well as post-manufacturing processes, and from IT to materials, components and service. Look forward to solutions by exhibitors from more than 30 countries* and make successful contacts with representatives of the R&D community.

SIMPLY IMPRESSIVE: DOUBLE THE POTENTIAL

Following its successful premiere, MedtecLIVE has already made its mark as the leading platform for innovations, technologies and business contacts in the European medical technology sector.

* All figures were taken from the show report for MedtecLIVE 2019.

AT THE HEART OF EUROPE

The European Metropolitan Region of Nuremberg rightly deserves its title "Medical Valley", as it pools the expertise of over 500 companies and more than 80 university-affiliated and 20 non-university-affiliated research establishments.

Thanks to the international airport and an excellent road and rail network, you can get to MedtecLIVE very quickly from all regions.

YOUR ROAD MAP FOR THE FUTURE

To make progress, you need an environment that inspires. MedtecLIVE showcases innovations that bridge the gap between present and future, generating a creative atmosphere full of valuable inspiration. Discover how to take your product development to the next level, with expert input from leading industry players.

INNOVATIVE STRENGTH THAT IMPRESSES

At MedtecLIVE you'll find the latest advances in concentrated form, at the exhibition stands, forums and MedTech Summit Congress & Partnering event. Alongside major players you can also look forward to fresh perspectives from young companies at the Innovation Market Place and in the pitches from the Start-Up Contest.

OUR PARTNERS AND SUPPORTERS

ONE MARKET, LOTS OF OPTIONS.

CONNECT

DIALOGUE DELIVERS NEW IDEAS

When experts from a wide range of disciplines covering all areas of the supply chain talk to one another, valuable inspiration is the result.

At MedtecLIVE you'll get the opportunity to be part of this dialogue at the No. 1 gathering place for the European medical technology community. Make new contacts immediately at the stands, discussion panels and networking events, in the international pavilions or at the matchmaking event "Partnering".

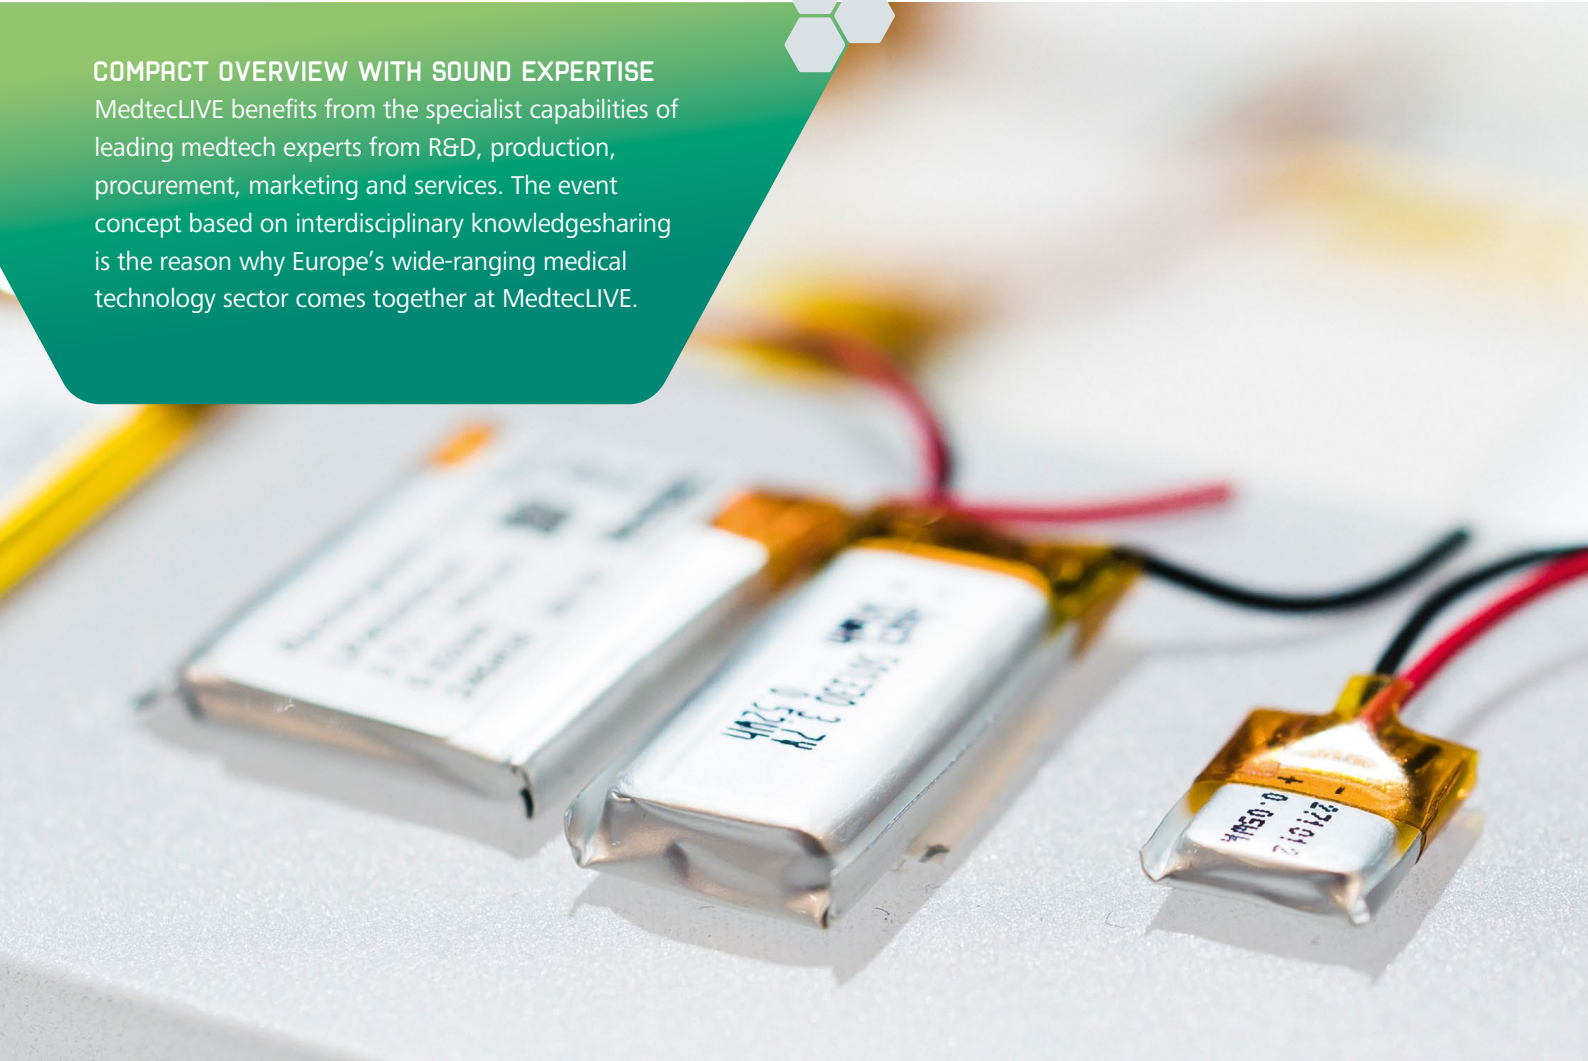

SPECIALISING IN GETTING RESULTS

At MedtecLIVE you'll meet exactly the right partners for your projects – service providers and experts that are just as solution-driven as you are. Discuss your questions with suppliers and manufacturers of components, assemblies and materials or providers of manufacturing technologies and processes. Whether you are seeking service providers or specialists in areas like regulatory approvals, MDR and packaging, at MedtecLIVE you'll find the contacts you need to jointly develop custom solutions and forge lasting business relationships.

DO BUSINESS

COMPACT OVERVIEW WITH SOUND EXPERTISE

MedtecLIVE benefits from the specialist capabilities of leading medtech experts from R&D, production, procurement, marketing and services. The event concept based on interdisciplinary knowledgesharing is the reason why Europe's wide-ranging medical technology sector comes together at MedtecLIVE.

ISSUES THAT MATTER. KNOWLEDGE THAT TAKES YOU FORWARD.

Gain valuable inspiration from the exhibition forum presentations at the heart of the trade fair action.

FORUM HALL 9

Presentations by start-ups and exhibitors

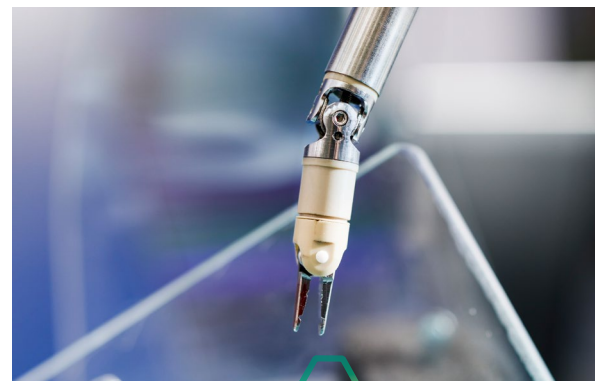

FORUM HALL 10.0

Presentations by prestigious event partners like Bitkom, BVMed, Konradin publishing house, VDE, VDI and ZVEI.

CONCENTRATED HIGHLIGHTS

The special display area Innovation Market Place features start-ups and research groups and provides comprehensive insights into the innovative strength in the medical technology sector.

Guided tours will take you directly to the topics that are currently defining your particular segment.

TOPICAL ISSUES*:

- Bioprinting
- Digitalisation
- Cybersecurity
- Medical Software
- AI in medical technology
- MDR
- Innovations
- Shortage of skilled personnel

* Information subject to change.

Effective Manufacturing

Digital Technologies

Artificial Intelligence

Connected Health

Clinical Innovations

Regulatory Affairs

LOOKING TO THE FUTURE: CONGRESS & PARTNERING

In 2020, MedTech Summit and MedtecLIVE will become one large integrated platform for the first time. International congress delegates and trade fair visitors will consolidate their practical knowledge in the presentation areas and network with one another at the B2B partnering event. All events are located on the exhibition floor and there is open access for all participants. Join with us in getting new ideas off the ground and make sure you are part of the action when we shape the future of the sector together.

The congress programme puts the spotlight on current and future issues in the sector. The agenda doesn't just cover cutting-edge topics like artificial intelligence, digital tools and innovative healthcare, but also the most important challenges currently facing the industry: manufacturing processes, regulation and connected healthcare.
