

# POWTECH

Leading Trade Fair for Powder & Bulk Solids  
Processing and Analytics

# PROCESSES TO KNOW. SOLUTIONS TO GO.

**29.9 – 1.10.2020**  
**NUREMBERG, GERMANY**

# FOCUSING ON THE TOPICS THAT MATTER TO YOU

POWTECH has always had a distinct focus on mechanical processing technology and on exploring the opportunities for your solutions in the processing of bulk solids. It's what makes POWTECH unique and your No. 1 event for powder and bulk solids technology.

## What distinguishes mechanical processing technology?

Dynamism and individuality.

## What is it that sets processes apart?

The uniqueness of your products and the attributes of the bulk solids.

At POWTECH you'll find individual solutions to match your requirements, because there are no off-the-peg solutions here. Targeted process optimisations, new concepts and cutting-edge technologies are all on display at POWTECH. So come along to the gathering for the international bulk solids community, enjoy in-depth discussions with experts and discover exciting details that will greatly improve your processes.

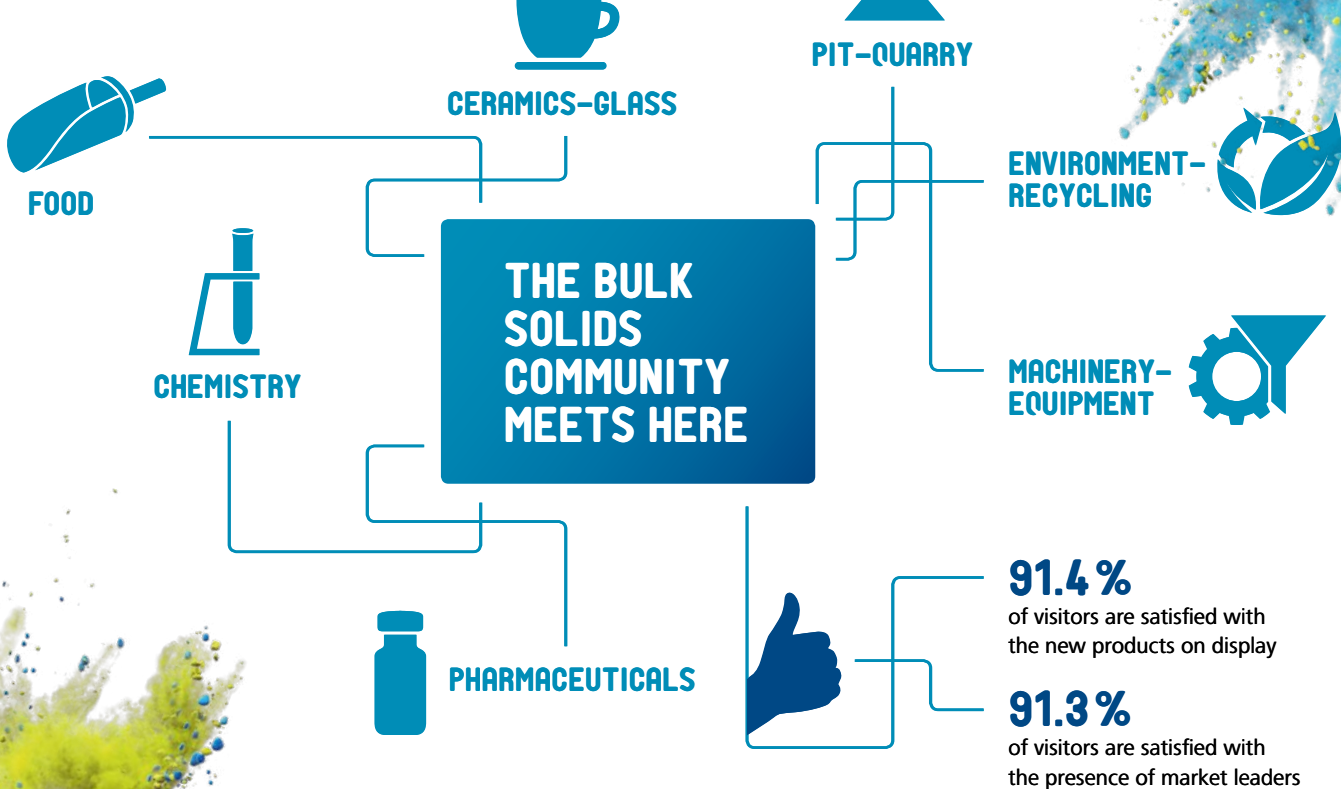

We look forward to welcoming you!

Your POWTECH Team

# POWTECH – MORE THAN A TRADE FAIR

**823**

exhibitors  
from 31 countries

# SUPPORTING PROGRAMME

With know-how transfer at the highest level, cutting-edge topics and stimulating discussions, POWTECH offers a comprehensive supporting programme and invites you to network among peers.

## Expert Forum

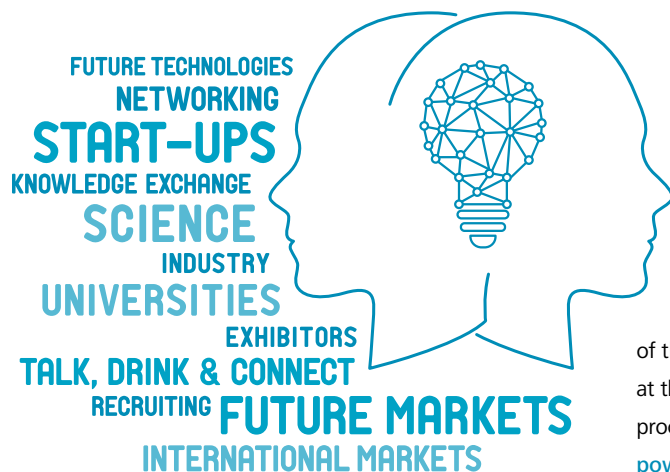

At POWTECH 2020 the spotlight will be on explosion protection and additive manufacturing, topics that matter to all user segments. Reap the benefits of these presentations and in-depth discussions with experts.

## Explosion Protection Special Area

Daily live explosions outdoors and exciting presentations inside: Keep up-to-date with the latest knowledge and gain informative insights at the accompanying IND EX Congress.

## Guided Tours

Get to POWTECH's product highlights faster with a guided tour. The DSIV (German Powder and Bulk Association) will take you directly to the latest technologies with a focus on "mechanical conveying systems".

## Life Science Forum

Hall 3C brings together the most important trending issues and exhibitors for the pharmaceutical and food sectors. In discussions with manufacturers of pharmaceutical excipients you'll discover a tangible connection to the user segment while gaining valuable inspiration.

## Networking Campus

What really connect us are personal contacts. Enjoy interesting conversations about the issues and technologies of the future and discover exciting jobs at the "hidden champions" of mechanical processing technology.
