WELCOME NOTE FROM PROF. DR.-ING. KWADE

// As one of the largest international particle and powder technology conferences, PARTEC 2023 addresses both the classical and the emerging fields of research and applications in particle technology. Sustainability, CO₂ impact and circular economy are becoming increasingly important. PARTEC 2023 wants to take this into account with the overarching theme "Particle Technology for Sustainable Products". I would be very happy to welcome you in Nuremberg at PARTEC 2023. //

Prof. Dr.-Ing. Arno Kwade,
Chairman of PARTEC 2023
