8 – 10.6.2022

# EUROGUSS 2022

International Trade Fair for Die Casting:  
Technology, Processes, Products

## Pavilion surface technology

For the 14th time the international die casting industry will meet from **8 – 10 June 2022 at EUROGUSS** in Nuremberg. With around 758 exhibitors and round 15,000 visitors, the exhibition is the platform for innovative solutions and products covering the entire **die casting value chain**.

Whether automotive, electrical engineering or office furniture - the **surface** is what is important. Depending on customer requirements and industry specifications, ever more **innovative**

**technologies are used in the processing of die-casted parts.** Starting with cleaning, deburring of edges and surfaces with various processes to decorative or functional painting or coating.

The **Pavilion Surface Technology** is the perfect opportunity to present your potential and services in surface technology for products made of the non-ferrous metals aluminium, magnesium and zinc to an interested trade audience and to develop new customer segments at EUROGUSS.
