The first show will take place at the modern Riyadh International Convention & Exhibition Center (RICEC) from November 7 – 9, 2022. With about 3,600 sqm exhibition space and 10,000 visitors we expect flourishing three days in the Saudi capital.

Two special highlights will deal with the topics “water” and “fertilizer”. These focus topics address the challenges of the local market. Also from a global perspective the water issue as well as the lack of organic fertilizer are increasingly calling for answers. There will be political roundtables and expert panels to discuss them.

It is the perfect place for trade connections and making contacts.

The show is held parallel to Saudi Halal Expo.
