- Comment: Dr. Niels Kohlschütter, Schweisfurth-Stiftung
- Moderation: Dr. Stephan Bartke, German Environment Agency

WS 5: Metrex Event - Metropolitan Landscapes – balancing the urban and rural within the Metropolitan regions agricultural land is often still a serious landuse. Moreover, we also see an increase of the use of space within the urban areas for growing food, in small gardens, parcs, etc. In the workshop at STADTLANDBIO we would like to focus on growing food, and processing those products within the metropolitan region's perimeter.

18.2.2021

www.stadtlandbio.de

Aspects we will discuss are

- What types of food is grown and at what scale
- What economic meaning does the growing of food and its processing have
- What destination these products have (local, export)
- Planning aspects of these activities
- The relationship to climate neutrality and climate adaptation

We will hear from various European cities and metropolitan regions on these topics and will discuss examples and principles. Actively participating cities are:

- Gilles Perole, deputy mayor Mouans-Sartoux and Thibaud Lalanne, Project manager Biocanteens Mouans-Sartoux
- Véronique Hartmann, Lyon
- Kees van Oorschot, Rotterdam
- Dr. Andrea Früh-Müller, Dr. Isabella Lehmann, Nürnberg
- Moderation: Henk Bouwman, METREX EG lead

15.00 – 15.30 Break

15.30 – 16.15 Get together: Organic cities and (eco-model-) regions in Germany and Europe introduce their work:

- Werner Ebert
- Marlene Berger-Stöckl
- Robert Gundlach
- Claudio Serafini
- Véronique Hartmann

16.15 – 16.30 Break

16.30 - 17.30 Final discussion „Healthy soil – healthy people – setting the course for the future despite Corona”

- Franz Rösl, Interessengemeinschaft gesunder Boden e.V.
- Reiner Erben, Department for Environment, Health and Sustainability, City of Augsburg, Spokesperson Network Organic Cities
- Ute Scheub, Author, Journalist
- Moderation: Dr. Tanja Busse

17.30 End
